

# Ground Floor Plan

Scale 1:75

- GENERAL**
1. These notes are intended to augment drawings and specifications. Where conflict of requirements exists the order of precedence shall be as shown in the specifications. Otherwise the strictest provision shall govern.
  2. This drawing is to be read in conjunction with all other relevant Engineers and Architects drawings.
  3. Drawings not to be scaled. All dimensions to be checked on site by the Contractor. Any discrepancies to be notified to the Engineer and further instructions obtained before work is commenced.
  4. The structure is designed to be self-supporting and stable after the building is fully completed. The Contractor is responsible to determine the correct procedure and sequence and ensure that the building and its components are safe during erection. This includes the addition of whatever temporary bracing, gys or tie-downs which may be necessary, such material remaining the property of the Contractor upon completion.
